RESPONSE TO RESTRICTION REQUIREMENT

In a restriction requirement dated August 17, 2006, the Examiner required restriction under 35 U.S.C. § 121 between Group I, claims 1-12, drawn to a device for monitoring the electromagnetic field emitted by a transmission apparatus with special means for averaging the transmitted electromagnetic field strength over a given time interval; and Group II, claims 13-26, drawn to system and method for monitoring the electromagnetic field strength transmitted by a transmission with a special geographic data base. Applicants provisionally elect to prosecute Group I, claims 1-12.

Please grant any extensions of time required to enter this response and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,
